CERTIFICATE OF
Design Assessment

This is to certify that a representative of this Bureau did, at the request of

NORDEN MARINE BEARINGS AS

assess design plans and data for the below listed product. This assessment is a representation by the Bureau as to the degree of compliance the design exhibits with applicable sections of the Rules. This assessment does not waive unit certification or classification procedures required by ABS Rules for products to be installed in ABS classed vessels or facilities. This certificate, by itself, does not reflect that the product is Type Approved. The scope and limitations of this assessment are detailed on the pages attached to this certificate.

Product: **Bearing, Water Lubricated Stern Tube Bearings**

Model: **NORDEN 788 MARINE**

This Product Design Assessment (PDA) Certificate 18-LD1743010-PDA, dated 07/Jun/2018 remains valid until 06/Jun/2023 or until the Rules or specifications used in the assessment are revised (whichever occurs first).

This PDA is intended for a product to be installed on an ABS classed vessel, MODU or facility which is in existence or under contract for construction on the date of the ABS Rules or specifications used to evaluate the Product.

Use of the Product on an ABS classed vessel, MODU or facility which is contracted after the validity date of the ABS Rules and specifications used to evaluate the Product, will require re-evaluation of the PDA.

Use of the Product for non ABS classed vessels, MODUs or facilities is to be to an agreement between the manufacturer and intended client.

Engineer/Consultant

NOTE: This certificate evidences compliance with one or more of the Rules, Guides, standards or other criteria of ABS or a statutory, industrial or manufacturer's standards. It is issued solely for the use of ABS, its committees, its clients or other authorized entities. Any significant changes to the aforementioned product without approval from ABS will result in this certificate becoming null and void. This certificate is governed by the terms and conditions as contained in ABS Rules 1-1-A3/5.9 Terms and Conditions of the Request for Product Type Approval and Agreement (2010).

Tier: 2 - PDA Issued

Product: Bearing, Water Lubricated Stern Tube Bearings

Model: NORDEN 788 MARINE

Intended Service:

Water lubricated stern tube bearings and propeller Shaft Bracket Bearings.

Description:

A fibre-reinforced thermosetting resin material with additional lubricant.

Rating:

1. Surface bearing pressure up to 0.6 N/mm² with a length to diameter ratio for the tail shaft:
 - a. For minimum length to diameter (L/D) ratio of 2:1 for the bearing next to propeller.
 - b. For all the other positions, L/D ratio as per Manufacturer's recommendations and in accordance with ABS Rules.
2. Bearing diameter size range: Minimum Internal Diameter 8 mm - Maximum Outer Diameter 2000 mm.
3. The wall thicknesses, machining allowance and installation procedures are to be in accordance with the manufacturer's recommendations and in accordance with ABS Rules.

Service Restriction:

- Unit Certification is not required for this product. If the manufacturer or purchaser request an ABS Certificate for compliance with a specification or standard, the specification or standard, including inspection standards and tolerances, must be clearly defined.
- This Certificate applies to the bearing material. Approved drawings of the actual bearing arrangement/ dimensions and attached equipment, as applicable by the rules, should be submitted for each application.
- Acceptance on facilities with Ice Class Notations will be carried out on a case to case basis.

Comments:

The Manufacturer has provided a declaration about the control of, or the lack of Asbestos in this product.

Notes/Drawing/Documentation:

Drawing No. Element Report C4238-2 RevA, Norden 788 Product Testing, October 2016

Drawing No. ISO 9001 & Certs, ISO 9001 and IACS certificates

Drawing No. Impact solutions IMP02855-LR Testing, Norden 788 Material Properties, January 2018

Drawing No. Statement of type approval DNV GL, DNV Survey Report

Terms of Validity:

This Product Design Assessment (PDA) Certificate 18-LD1743010-PDA, dated 07/Jun/2018 remains valid until 06/Jun/2023 or until the Rules or specifications used in the assessment are revised (whichever occurs first).

This PDA is intended for a product to be installed on an ABS classed vessel, MODU or facility which is in existence or under contract for construction on the date of the ABS Rules or specifications used to evaluate the Product.

Use of the Product on an ABS classed vessel, MODU or facility which is contracted after the validity date of the ABS Rules and specifications used to evaluate the Product, will require re-evaluation of the PDA.

Use of the Product for non ABS classed vessels, MODUs or facilities is to be to an agreement between the manufacturer and intended client.
